a the phase matrix dense where the status of the status of a phase matrix dense where the status of a phase matrix dense Monte to alight, where the "bus" in waiting of the sand hills are the seal rocks, at times conveyed us to the hotel, not far distant, while covered with these awkward creatures. Thence the train continued to its terminus at Monterey. Need I say I was surprised ? I believed I had cypress grove where the trees, instead of having utterly failed to thoroughly picture to my mind the narrated and written descriptions of both house and grounds that I had been favored generally, bear the foliage out like great sheets with; for great though my expectations had of green moss or velvet and are gnarled in been, and though unauspicious the time of my their trunks. Beyond this is Pebble beach, arrival, I found pleasant surprises on all sides Chinese Cove, Pescadero and the historic without, and unequalled, spacious provision for Carmelo Mizaion now in ruins. This latter comfort within. One takes in at a glace the point of interest I had to omit for want of fact that no expense has been spared in estab- time and on account of the rains, so instead lishing and conducting the hotel and laying of continuing our road to reach the highest out its picturesque grounds. While the rain interfered with my outdoor plans, through the courtesy of the efficient clerk in charge, an at-tendant was deputed to conduct me through the entire building, so that I can not say that the balance of my afternoon was unprofitable. Some Press readers may be interested to know

the balance of my afternoon was unprofitable. Some Press readers may be interested to know that the Hotel del Monte is a three-storied works, a finely constructed reservoir at an which tract is cultivated by the management modern gothic wooden structure 385 feet in elevation of 150 feet above the hotel, the Mr. Chapin's skill as a cane cultivator length and 115 feet in width, with wings. In roads and grounds adjacent being as thoroughly attested by the fine appearance of his ca length and 115 feet in width, with wings. In the front centre part of the building is the lobby, 42 by 48 feet, the right hand side being devoted to the office needs, and opposite a in fact, come to think of it, for the hotel comspacious fire place, while directly in front, as pany have secured nearly the whole of this Plantation was employing Hawaiians, Chinese you enter, is the grand staircase. Broad cor-ridors run lengthwise of the building on the adjunct to the hotel attractions, to afford a Japanese were giving "perfect satisfact different floors ; the front rooms on all being romantic drive for the double enjoyment of sea was assured. suites and the rear rooms single. room 45 by 70 feet, a smaller one for childre and others for private parties. Everything in Notwithstanding the inclemency of the weather and about the hotel is evidently kept in the very best of order and nothing throughout the I had seen the beauties and attractions of this Mr. James Renton is manager ; Mr. Henry entire building gave any indication of the most famous resort with but a day and a half's length of time it had been opened (now about absence from the city. I realized then the four years) except the effects of heat around truth of Mr. Judah's remark that it would and above the great fire place in the lobby. Excepting this I saw naught to show but what it seemed then, and does now, to have rounded Hawi Mill and much of the tributary land is the Del Monte had opened to the general pub- it out with a completeness otherwise unattainlie the week prior to my arrival. A broad able. And to my persistant friend referred the mill. Mr. W. J. Brodie, the Beecroft verandah runs the length of the building on to, who would none of my excuses for want of Plantation of which Mr. E. A. Burchardt is the front, and considerable length on the ends. time, or anything else, be ever grateful A tasty garden plat surrounds the building memories.

and is probable the best patterne or mosaic pattern gardening to be seen on the Pacific Looking out from the front verandah of the hotel, beyond spacious and well-kept sanded drive-ways, are garden plats of flowering plants and shrubs, winding paths between eading to grassy lawns beyond, where, amid and was perhaps a bore, at times, in my search ta oaks, and towering pines, tennis after knowledge of places, and people and in majestiz oaks, and towering pines, tennis after knowledge of places, and people and in their shipped men and day laborers, and com gounts, croquet grounds, swings, archery and my enquiries relative to their interests. I met r games are provided for, as well many who expressed their warm aloha for the sand bins for the infantile guests of this islands, and in return for passing courtesies ex. mammoth hotel. Everything that art could tended them here, made me feel there was suggest and wealth procure has been made nothing too good for a wandering represen-subservient to the main idea of beautifying a tative of Hawaii. For all such I shall ever naturally picturesque spot. To the south- feel a grateful rememberance.

ing alley, and midway between it and the notings of changes going on in various direchotel, east of the garden walks is a bed of tions, as also reminiscences learned of, and eacti of all sorts, kind and sizes, so arranged people met, might furnish further subjects for that the effect is peculiarly interesting. On the north-east is the labarynth of growing cypress, it may be deemed wise to "take a rest." intering which parties of ten want

are they find the exit. I had heard of this pussle plat and visited it the next day, but I need hardly say that I did not next day, but I the time for the experiment. On the north of and in plain view of the hotel is a small lake or pond-known as Laguna del Rey-that is w being bordered with rocky banks, and in which small islets are being built, so that ere ong this artificial lake, stocked with swans, as a contemplated, will add still further attractions to these spacious grounds. The effect of this view as seen from the main tower of the hotel is easier imagined than described, and if I gave an involuntary expression of satisfied pleasure at the picturesque panorama as the a scene lay before me I don't think I differed om the 17,000 visitors who preceeded as the year before. Some little distance from the hotel on the south, and beyond the bowling alley and billiard hall are the stables, acknowledged to be finely appointed throughout, with ions for over sixty horses. Gas made upon the grounds is formished to all parts of the botel and its adjacent buildings, and pure water is supplied from a reservoir five miles away, fed by the Carmel river ten or twelve farther distant.

For mant of time the bath house on the but a few minutes walk from the hotel as not visited. Like everything else in con-
